# CHARITY DAY

## AND OUR CHOSEN CHARITY

Charity Round is an annual event in which UQ Rugby chooses a charity to raise funds through the sponsorship of playing jerseys and an online jersey auction. Each 1st Grade and Women's jersey is sponsored by a different business and these jerseys are then auctioned off with all proceeds going to the chosen charity. Past charities include Legacy, Lifeline and the Modified Rugby Program - raising over \$20,000 collectively. Last year the benefactor was White Cloud Foundation.

**This season our chosen charity is the Buildcorp Foundation.**

# Buildcorp

## FOUNDATION

**Buildcorp Foundation is on a mission to support good mental health and help put an end to suicide.**

Established in 2014, the Buildcorp Foundation is committed to raising funds to help tackle Australia's mental health crisis. Over the years, the Foundation has raised over \$5.7M million and funded initiatives from Lifeline Australia and the NSW Department of Education, targeted at improving the mental health outcomes for all Australians.

Buildcorp Foundation is a purpose built independent charitable structure with full DGR status and 0% staff costs. The Foundation partners with government and business to jointly fund large initiatives.

A donation to the Foundation enables donors to contribute to a bigger and wider impact, not just for those in crisis who need it most, but also for a mentally healthy and resilient generation of tomorrow. By tackling this from both sides, we can work together to put an end to suicide.
